

The acquaintances and friendships, the business network and the experiences I gained broad made the IGP the perfect start for my career.

Žiga Arčon

Development Engineer

Former International Graduate Mechanical Design

International Graduate Program Launch your career with an international boost!

Do you want to get ahead professionally and shape the future of mobility? Exciting roles, variety and international exchanges are all part of the International Graduate Program. We will prepare you for your future career and the demanding roles that you will take on. Join our team and let's be **#StrongerTogether**.

You are a graduate with an excellent Master's degree in Engineering or Business with a technical profile?

You can expect

- A tailored program of 18 months within one assigned core area to help you grow into your target position at MAHLE
- Insights into different fields, projects and countries within your job rotation, each 3–6 months
- The opportunity to take on responsibility and the space to incorporate your own ideas

You will benefit from

- An individualized development program with graduate trainings, support by experienced mentors and networking events
- A permanent employment contract from the beginning and above-average payment
- Insights into a new country and culture during at least one assignment abroad

Please provide the following documents for your application in English language: CV, Cover letter and relevant certificates to the e-mail address: si.kadri@mahle.com. For all your questions you can contact the same e-mail. We are looking forward to your application! Find out more about our open positions in the areas of R&D and Production of automotive traction drives, Engineering Services (testing and validations) and Controlling and visit us on:
