

Design your own career.

We are one of the leading Management and Technology Consulting companies, servicing clients globally. In Austria we support our customers with more than 400 specialists as BearingPoint Technology in agile software engineering and consulting projects. We are always looking for qualified people ready to take on exciting international projects. **Develop [yourself] with us!**

Junior Java Software Engineer (m/f)

Your future areas of responsibility include:

- Tasks in the whole application lifecycle from requirements analysis up to implementation and delivering of software components based on Java Enterprise Edition
- Development of Web frontends and business components as well as the connection of the software to data base systems
- Your tasks will include product development or to be part of local and international projects
- Development of Web service interfaces in a service orientated architecture and implementation of business models
- Software Quality Assurance via unit and acceptance tests

Your qualifications:

- Completion of technical education and professional experience with object-oriented development e.g. Java
- Ability to understand new concepts quickly and interest in learning and using new technologies
- Experience in development with JEE, SQL and Test-Driven-Development with JUnit
- Experience in some of the following areas would be of advantage: Spring, ORM Frameworks, Maven, HTML5

Our offer:

We develop with "Scrum", an agile procedure model which demands teamwork and communication and therefore offers a pleasant working environment. You can expect versatile and interesting assignments with a high personal responsibility and very good educational opportunities. Good co-operation and social interaction are essential elements of our philosophy. Therefore, we offer our employees scope for development to integrate all personal strengths in an international field of activity.

Due to regulatory reasons, we advise you that the collective agreement stipulates a salary starting at EUR 33.502,-- gross/year for this position, but of course offer overpayment.

Are you interested? Please apply with your complete application online or via E-Mail.
