## Speech Data Specialist (Slovenia)

This project is for acoustic data collection. Our main focus now is on mobile features related to speech recognition

**Job title:**
Speech Data Specialist

**Job description:**
The Speech Data Specialist works in-field to collect voice samples from volunteers using Android mobile phones.

This includes:
- assist in the recruiting of voice sample volunteers
- assist in collection of voice sample data
- assist in the coordination of events related to data collection
- participate in training and evangelizing about automatic speech recognition (ASR)
- be responsible for equipment, t-shirts/or vouchers and participants policy
- be familiar with mobile phones and internet technology
- be able to work independently with confidence and little oversight

This candidate should be able to work 20-30 hours per week and be fluent in English and the target language (Slovene).

Project duration: 2 - 4 weeks (with potential for extension)

In order to apply please email your CV in English (PDF format preferred) to antoniakvk@google.com with "Data Specialist Slovenia" in the subject line.
