Consulting. Software. Ventures.

## Junior Network & Security Engineer part-time/full-time (m/f/x)

### Your future areas of responsibility include:

- 3<sup>rd</sup> level support of complex network solutions
- Implementation and support of network solutions based on Cisco components
- Customer service for network solutions (routing/switching, wireless and firewalls)
- Acting as the contact person for network and IT security related problems, as well as for internal and external customers
- Communication of problems to external partners and producers

### Your qualifications:

- Good knowledge and practical experience with networks and network protocols (e.g. TCP / IP, switching, routing, etc.)
- Knowledge of current security concepts and methodologies (e.g. VPN, Firewall) would be an advantage
- Willingness to engage in communication and knowledge transfer
- Cisco CCNA certification (or higher) would be a plus
- Strong sense of responsibility and reliability
- Analytical, solution-oriented thinker, with a strong drive to get things done
- Good German and English skills (written and verbal)

### Our offer:

You can expect versatile and interesting assignments with high personal responsibility and very good educational opportunities. Good cooperation and social interaction are essential elements of our philosophy. Therefore, we offer our employees scope for development and to integrate all personal strengths in an international field of activity.

We offer a minimum salary starting at EUR 2.600,- gross/month for this position. We offer a market-compliant payment depending on your qualifications and previous experience.
